

Luxteel[®]

Premium material for Elevator

Luxteel is Dongkuk Steel's flagship colored steel plate brand for interior and exterior application created to fulfill any construction purpose based on its superior design and versatility. In particular, Luxteel developed for elevators is reasonably priced with respect to stainless steel and requires no complex post-processing procedures, exhibiting an impressive competitive advantage in terms of both price and lead time.

Furthermore, it offers a diverse range of stylish patterns and textures to choose from and adds to the luxurious ambience of any elevator. Luxteel has already been selected by a globally renowned elevator company and applied to the company's products as the main material, receiving many positive responses.

By selecting luxteel you can add perfection to your elevators.

Luxteel[®]

Premium material for Elevator

DONGKUK STEEL

Newly write the history of steel with a unique spirit of challenge.

In 1954, when it was the time to rebuild the frame of this land, DONGKUK STEEL established a private steel company for the first time in Korea with a mission to erect the steel business above all. We have introduced high-class technologies and high-tech equipments and established a new milestone in the domestic industry for the past sixty years. DONGKUK STEEL now has stood atop as a leader of the world market. We shall always be with you with solid conviction and strong competitiveness that are the symbols of steel.

Annual Manufacturing Capability

Pre-Painted Steel	Steel Making / Casting	Reinforcing Bars	Sections	Steel Plates	Zn-Coated Steel
750	3.6	2.75	1.3	1.5	1.7
thsd tons	mil tons	mil tons	mil tons	mil tons	mil tons

Milestones in the journey towards excellence

Operated blast furnace in Korea

Manufactured cold rolled steel in Korea

Manufactured steel plate in Korea

Start selling color coated steel

Launching Luxteel

Completion of CSP / Completion of No. 9CCL

Product Features

Aesthetically Appealing
The sophisticated patterns and textures unique to Luxteel add to the luxurious ambience of any elevator.

Formable and Workable
Luxteel exhibits outstanding formability and workability, thereby reducing material loss and enabling a perfect finish.

Incombustible
Luxteel is incombustible and ensures fire safety.

Eco-friendly
Luxteel is made with materials that are harmless to the human body and can be 100% recycled.

Strong and Durable
Luxteel successfully withstands high speed and wind pressure at higher altitudes.

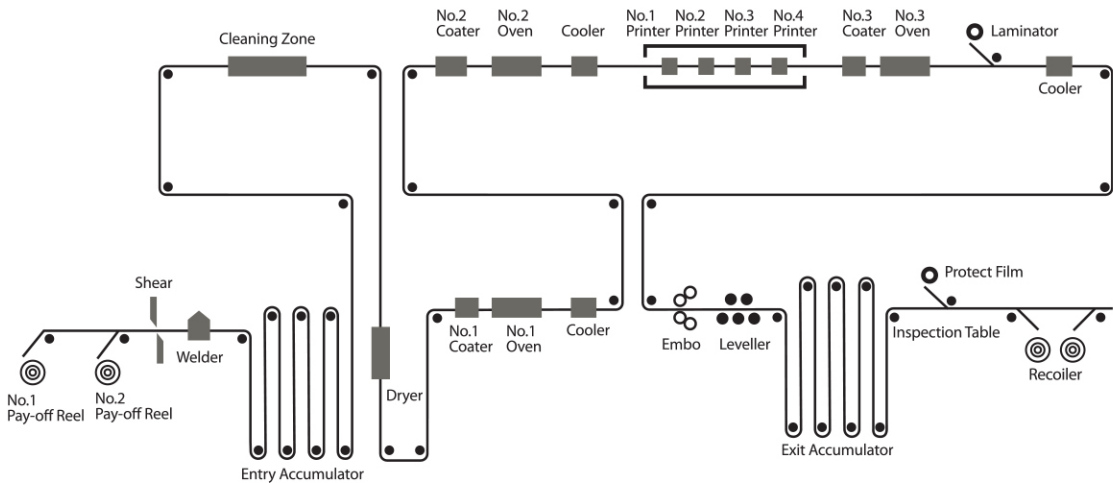

Cost-effective
Luxteel is pre-painted and thus substantially reduces post-processing procedures. It is reasonably priced with respect to stainless steel.

Product Structure

- 1. Protective Film**
The protective film prevents from scratches and contamination.
- 2. Clear**
The transparent layer protects layers and enhances the appearance of the surfaces.
- 3. Printing**
These layers creative various print patterns.
- 4. Base**
It works as the base color for printed layers giving it excellent mechanical & chemical properties.
- 5. Primer**
The chemical solution improves workability, corrosion resistance and adhesion to primer coating.
- 6. Chemical Treatment**
This chemical layer improves corrosion resistance and adhesion of the base metal.
- 7. Base Metal**
CR, EGI, CGI & G/L is commonly applied to home appliance out-case and building panels.
- 8. Back**
This treatment improves corrosion resistance of the backside and adhesion to urethane.
